

## Tenure-Track Faculty Opportunities at IIIT-Delhi, India

Location: DBH 4011

Date: Tue Nov 7, 2017

Time: 10-11 am

IIIT-Delhi (Indraprastha Institute of Information Technology Delhi) is a research-led institute created by Government of Delhi with a clear goal of becoming a globally respected academic Institution for both research and teaching in IT and allied areas. The institute has over 60 faculty members – all its regular faculty having substantial international experience and with over half having PhD from US and Europe. It has a strong focus on research – its PhD program in CS is one of the largest in the country, and ranks as one of the top in India according to CSRankings or according to publications per faculty in 2015. Being unencumbered by past, it has employed many measures like tenure system, yearly review, yearly professional grant based on performance, etc. to help it achieve its vision, making it one of the most vibrant and exciting academic environments in India and an ideal place for a young researcher who wishes to work in India and make an impact/difference. It is currently in the midst of a major expansion, for which it is looking to recruit high quality faculty in various disciplines who can conduct research and education at international levels.

In this interaction a brief presentation will be given on the vision of the Institute, its current research areas, areas in which it plans to recruit strength, recruitment process, compensation (its compensation is among the best in the country) and other support for faculty, etc. The presentation will be followed by interaction. (Individual meetings can also be scheduled – for that please email Dr. Jalote – [Jalote@iiitd.ac.in](mailto:Jalote@iiitd.ac.in) ).

This interaction will be particularly useful for graduating PhD students and post-doctoral fellows who may want to explore career opportunities in India. Faculty positions are open to people of all nationalities (IIIT-Delhi currently has two regular international faculty – one from Germany and one from Korea.) It may also be of interest to faculty looking for Sabbaticals, as IIIT-Delhi is also looking to host Sabbaticals for faculty who wish to spend a semester or more.

**Pankaj Jalote**  
Director and Professor

Indraprastha Institute of Information Technology  
(IIIT) Delhi

Pankaj Jalote is the founding Director of IIIT-Delhi (Indraprastha Institute of Information Technology Delhi). Earlier he has been an Assistant Professor at University of Maryland College Park, Chair Professor at IIT Delhi, and Head of Computer Science Department at IIT Kanpur. He has also been Vice President at Infosys for 2 years, Visiting Researcher at Microsoft in Redmond for 1 year, and Interim Vice Chancellor of Delhi Technological University (DTU) for six months.

He has a BTech from IIT Kanpur, MS from Pennsylvania State University, and Ph.D. from University of Illinois at Urbana-Champaign. He is the author of five books, some of which have been translated in Chinese, Japanese, Korean etc, and the Indian edition of his text on *Software Engineering* was adjudged the bestselling book by the publisher. His main area of interest is Software Engineering. He has served on the editorial boards of IEEE Transactions on Software Engineering, Intl. Journal on Empirical Software Engineering, and IEEE Trans. on Services Computing.

He is a Fellow of the IEEE and INAE.

**Areas of Interest:** Computer Science, Computer Engineering, Design and HCI, Electrical Engineering, Communications Engineering, Computational Biology, Applied Mathematics, Economics, Sociology / Anthropology, Psychology, other areas of Social Sciences relevant to IT and Society theme.
